

## Think of Last Summer--

You can remember days when the heat inside your kitchen was so great you could hardly bear it. With the right stove you would have made a better hostess. Save your health. Don't put up with the drudgery of a coal range. You can have a clean, cool, pleasant kitchen. The

does away with all drudgery of cooking. Why should you be a slave to a coal range when you can have an Oil Cook-Stove that is cheaper than coal, cleaner than coal, doesn't "smell," doesn't smoke, lights instantly, can be put out instantly, leaves no ashes, and doesn't heat the kitchen. With one of these stoves you can boil, bake or roast the most elaborate dinner. You can change from a slow to a quick fire, or the other way about, by simply turning a wick. Apply a match and instantly the heat from an intense blue flame shoots upward through the turquoise-blue enamel chimneys to the bottom of pot, kettle or oven—but nowhere else. The stove has every convenience that can be thought of: Cabinet top with shelf for keeping food and dishes hot, drop shelves to hold coffee or teapots, towel rack; in fact every convenience possible.

The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive.

Summer Prices  
Anthracite Coal.

Our 1910 summer prices on Anthracite coal will become effective Monday, May 2nd, 1910.

There has never been a time in the history of our business when we felt that we were able to give better values in Anthracite coal than we can now. As we have completed our arrangements to secure the entire supply from two of the very best collieries in the Anthracite region, and will have a coal which is uniform in quality, well prepared, and coal that will give far better results than the average.

It is our desire to give our trade the best values that can be had, and we earnestly solicit the orders of our friends and customers.

The Overland factory is at this time 3,000 cars behind on orders. It is not hot air and it is not advertising bluff when we say that the demand for the Overland is growing like a flood. These are actual facts and there is a reason. The very fact that Overlands are hard to get proves their value all the more, and they are well worth waiting for. Give us the "wink" and we will try to get one for you.

## Alexandria Gazette.

TUESDAY EVENING, MAY 10, 1910

No Lie After All.

They were telling fish stories, and at last the tall, lank man on the cracker barrel said:

"I went down to the river this morning, and although the water was high almost to a flood, I took a ten foot pike!"

"Stop there!" exclaimed the fat man with the cornucopia pipe. "Tell us you took an eight pound trout, and I'll sit idly by, but a ten foot pike—never! Ananias died for less than that."

"I took a ten foot pike pole," continued the unflinching tall, lank man on the cracker barrel, "and in less than five minutes I hooked out a fifteen foot bass!"

"See here! See here!" yelled the man who owned the grocery. "You'll have to go away from here to finish that lie. I ain't got no lightnin' rod on this store yet!"

"I hooked out a fifteen foot bass-wood log," persisted the tall, lank man, "and I want to ask how much you think I kin git for it?"

Not Aply Worded.

An absurdly worded statement of a fact which was not in itself remarkable recently tried the gravity of the listeners.

It was on the occasion of the funeral of an elderly woman in a New England town. She had left an old mother, nearly ninety years of age, and an only son who was well on toward fifty.

The services were conducted by a timid young clergyman recently settled over the parish. After praying for many and various things he said:

"And two we especially pray that the Lord will comfort and sustain in their loss and sorrow. One is the orphan, who, although no longer young, is an orphan still and must so continue. The other is the mother, far advanced in years, who has survived her daughter, although considerably her senior."—Youth's Companion.

Physicians in Japan.

Medical students in Japan must have had eleven or twelve years of preliminary training in the lower schools. No one may practice medicine who has been convicted of a crime. All physicians for the first ten years during which they follow their calling must keep full written records of all their cases, and they must not issue boastful advertisements or claim the exclusive right to any healing invention with a secret formula.

The Best Proof.

Little Ted, seven years old, was sent to the bathroom for a "good scrub" before dinner, but returned so quickly that his mother declared he couldn't possibly have washed himself. He replied, "Truly I did, mother, and if you don't believe it you can just go to the bathroom and look at the towel."—Delineator.

Cutting.

Miss Homeleigh—Perhaps you won't believe it, but a stranger man tried to kiss me once. Miss Cutting—Really? Well, he'd have been a stranger man if he'd tried to kiss you twice.—Illustrated Bits.

A Great Success.

First Young Wife—Do you find it more economical, dear, to do your own cooking? Second Young Wife—Oh, certainly! My husband doesn't eat half so much as he did.—London Punch.
